24th February 2010

Dear Parent/Carer,

I would like to inform you of the 'Home Access' initiative, currently available to parents of children in years 7,8 and 9. Home Access is a government drive which will help low-income families to get access to a computer and the internet to get online at home.

It is well known that children who go online for learning at home, get on better in school and with a computer and the internet at home, everyone in the family has the chance to learn more.

If you are a low income family in receipt of certain benefits you could qualify for a grant to buy a computer and/or a minimum of one years' internet access. The programme is aimed at those that need it most and targets families that do not have access to a computer or the internet at home.

Depending on what you need, the grant allows eligible applicants to buy one of the following packages:

1. Full package (a computer, one year's internet access, service and support)
2. A computer with service and support only
3. One year's internet access only

To find out if you may be eligible for a grant answer the questions on the reverse of the leaflet attached to this letter. If you are eligible and would like to request a Home Access grant application form, ring the Home Access grant helpline on **0333 200 1004**.

Yours sincerely
