14th December 2009

Dear Parent/Carer,

I am writing to give you some information regarding the forthcoming examination period. As you will be aware the AS/A2 modular examination period begins on January 11th and ends on January 29th. Most students will have one or more examinations at this time. Lessons will continue throughout this period so students need to inform subject teachers in advance if they are going to miss their lesson due to an exam. Students are entitled to miss lessons in the morning of a day when they have an examination in the afternoon, or on the previous afternoon if the examination is in the morning. Apart from these circumstances, students will be expected to attend lessons as normal. Communication with subject and form teachers about this is essential.

I am sure you will support your son/daughter during this period by ensuring they are working very hard preparing thoroughly for their examinations. Experience shows that failing to achieve their potential at this time puts students under tremendous pressure in the next examination session in summer through having to re-sit modules. This can in turn affect their performance in the summer examinations. It is of course also essential that students find a healthy balance by eating and sleeping well, doing some exercise and taking time to relax in addition to their studies.

Thank you for your support in this matter. If you have any queries please do not hesitate to contact your son/daughter's Form Tutor.

Yours faithfully,

Ms M Gannon
Assistant Headteacher
